

WMK-02

Maximize space in any environment with the convenient WMK-02 Wall Mount Kit.

The sturdy WMK-02 allows for easy mounting of any VESA compliant display, and for convenient rotation between profile or landscape display orientations. Made from high-grade anodised steel, this 1-piece bracket is rust resistant and can accommodate displays weighing up to 18 kg. The WMK-02 is perfect for environments such as classrooms, lobbies, retail outlets, as well as outdoor kiosks and other public areas where space is at a premium.

- > Easy-to-use 1-piece bracket design
- > Simple manual adjustment allows mounted display to rotate into a landscape or profile configuration
- > Space saving 12 mm depth
- > High quality steel construction
- > Anodised surface prevents rust
- > Suitable for indoor/outdoor environments
- > VESA standard design
- > Accommodates LCD displays up to 18.0 kg (40.0 lbs)

Any display can be quickly converted from landscape to profile display orientation

Thin-profile design requires a mere 12 mm of distance between wall and display

Specifications
